

INDOOR growing*system

- Latest commercial design
- Effortlessly easy to operate
- Optimum yields

Two IGS modules
shown connected together

IGS – Professional – based on well-established commercial designs and built by professional horticultural engineers in Holland.

IGS – Complete – full kit contains everything needed for growing success.

IGS – Modular – each unit covers 1 square metre (approx. 10 sq ft). Kits connect together easily to fit any growing area.

IGS – Profit Disc – commercially endorsed growing medium from Holland.

IGS – Proven – IGS technology is used extensively by commercial growers in Europe and has been fine tuned to their demanding standards.

IGS – Trouble-free – IGS does not leak, it is easy to set up and is very reliable in producing great crops.

Full kit includes

- PROFIT DISCS – highly compressed virgin coco fibre in disc form
- 20 pots
- Pump
- Tank
- Nutrient supply system
- Full illustrated instructions
